ABOUT ME

I am a motivated Computer Science and Engineering student with a strong interest in software development and problem-solving. I enjoy building practical solutions through web development, desktop applications, and computer graphics while continuously expanding my technical knowledge. Through academic and personal projects, I have been developing my programming skills and gaining hands-on experience with modern technologies. I am eager to contribute to a professional team, learn from experienced developers, and grow as a Software Engineer through an internship opportunity.

PROJECTS

PORTFOLIO - Own Developer Website

A relevant project for a software engineering student. Describe the website's actual features, technologies, responsive design, and any interactive functionality you implemented.
